ABOUT ME

Information Technology undergraduate at the University of Moratuwa passionate about software engineering, full-stack development, AI, and machine learning. Experienced in building practical applications across frontend, backend, and database layers, with hands-on experience in APIs, authentication, and third-party integrations. A proactive problem solver with strong leadership, teamwork, and communication skills, driven by continuous learning and building impactful software solutions.

EDUCATION

University of Moratuwa - BSc (Hons) in Information Technology | 2023 - Present

- Focused on software development, system design, computing technologies, and practical problem-solving.
- CGPA: 3.72 / 4.00
- Relevant Coursework: Object-Oriented Programming, Data Structures & Algorithms, Database Management, Web Technologies, Software Engineering, Computer Networks, Operating Systems, Computer Architecture, Systems Analysis & Design

Taxial Central College Horana | 2014-2022

- G.C.E. Advanced Level – Physical Science Stream
A – Chemistry | B – Physics | B – Combined Mathematics
 - G.C.E. Ordinary Level - 9 A Passes
 - Achieved excellent academic results while maintaining active involvement in badminton and swimming, developing discipline, commitment, teamwork, and a balanced approach to academics and extracurricular activities.
-

TECHNICAL SKILLS

- **Programming:** Python, Java, JavaScript, TypeScript, C, C++
 - **Frontend:** React.js, Next.js, TypeScript, Vite, Tailwind CSS, Redux Toolkit
 - **Backend:** Node.js, Express.js, FastAPI
 - **Databases:** PostgreSQL, SQL, Prisma ORM, SQLAlchemy, PostGIS
 - **AI / ML:** Machine Learning, Generative AI, Prompt Engineering, AI APIs
 - **Tools:** Git, GitHub, Docker, Postman, VS Code
 - **Other:** REST APIs, JWT Authentication, Stripe API, Webhooks, Socket.IO
-

PROJECTS

FreshRoute – Smart Logistics & Delivery Management System

- Developed a web and mobile platform for fleet, delivery, and route management, incorporating real-time tracking and vehicle assignment.
- Applied bin packing and spatial clustering techniques for delivery planning using PostgreSQL/PostGIS.
- Integrated Google Maps API and Socket.IO to support route planning, location tracking, and real-time delivery operations.

AI Expense Analyzer

- Built a full-stack expense management platform with AI-powered receipt parsing, budgeting, recurring expenses, and real-time alerts.
- Integrated Google Gemini AI for financial insights, spending summaries, and a streaming AI chat assistant using SSE.
- Implemented JWT authentication, notifications, data export, filtering/sorting, and interactive financial dashboards.
- Tech Stack: React, TypeScript, FastAPI, PostgreSQL, Prisma, Gemini AI

AI Learning Companion

- Working on an AI-powered browser extension designed to assist users while learning from online videos, articles, PDFs, and educational content.
 - Designed AI features including summarization, key-point extraction, quiz generation, flashcards, and topic detection.
 - Working with Python, FastAPI, AI APIs, and prompt engineering.
-

LEADERSHIP & EXPERIENCE

Horana Toastmasters Club

Vice President of Membership | 2025–2026

- Led membership recruitment, engagement, and retention initiatives, contributing to the club's growth and member experience.
- Contributed to the club earning the Smedley Award through successful membership development and recruitment efforts.
- Strengthened leadership, communication, teamwork, and organizational skills through managing membership initiatives and club activities.

AIESEC – Team Leader | 2025 - 2026

- Developed strong leadership, communication, teamwork, and problem-solving skills through team management and project execution.
-
